### SKILLS AND QUALIFICATIONS

**GRAPHICS AND MULTIMEDIA:** Photoshop, Illustrator, Flash

**PROGRAMMING LANGUAGES AND TOOLS:** XHTML, CSS, JavaScript, HomeSite, BBEdit, Dreamweaver, IIS, Visual SourceSafe, Visual Interdev, WinCVS.

#### **PROFESSIONAL SKILLS:**

- Possesses great artistic sense and able to design creative websites
- Extensive experience in building and leading production of award-winning websites, and other web projects
- Demonstrated abilities in leadership, organization, planning, and prioritization
- Solid knowledge of browser- and platform- specific issues
- Strong communication, interpersonal, training, and team building skills
- Can juggle multiple projects at the same time, readily flexible under changing conditions

### EXPERIENCE

2001 - Present - Chevron, San Ramon, CA

*Web Designer, Web Developer, Site Lead, Web Consultant, Flash Artist*

Design intranet and external web sites according to company design standards. Design numerous internal websites according to existing layout and standard guidelines. Perform web development and maintenance for intranet and website projects. Suggest and execute creative and technical solutions to many projects. Create interactive and digital presentations using Flash. **Notable accomplishments:** Led team of developers to completion of the Chevron-Texaco merger website. Conducted one-on-one training on intranet web site production.

- [Chevron Web site](#)
- [Texaco Xpress Lube Web site](#)
- [Ursa Web site](#)

1999-2001 - SFInteractive, San Francisco, CA

*Senior Front-End Developer*

Worked with team of producers, designers and engineers considering all aspects of the site: timelines and time estimates, architecture, user interface and flow, technical issues, back-end and front-end needs, and site prioritization. Involved in early stages of projects and obsessed in processes to ensure smooth production flow. Reviewed site architectures, copy, design, schedules, functional and site specs with team members, anticipating problems and suggesting creative and technical solutions whenever called for. Efficiently delegated projects to the web developers. Created naming convention specs. Performed site maintenance, QA, graphic manipulations and optimizations, and project postings/stagings. Assisted in basic Flash production, art production and web design. Troubleshoot bugs and documented learnings for future projects.

Sample work:

- [Mistic Zotics Web site](#)
- [NASCAR / Silicon Motor Speedway Web site](#)

1999 - Eason Communications - Alameda, CA

*Graphic Design Intern/Web Designer*

Typeset newsletters. Coded HTML pages and optimized graphics for the company website.

**Freelance work:** Developed and maintained websites and portal sites using HTML, JavaScript, CSS, MySQL and PHP. Designed web pages, and logos.

- 2003 – [Alejandro & Martin](#), Montague, MA
- 2001 – Hamilton Partners, Inc., Healdsburg, CA
- 2001 – [Quacon, LLC](#), San Francisco, CA
